

Philips  
Surge protector

**PowerSquid**

5 outlets

**SPR5520**

## Computer/Telephone/DSL Power Protection

918 Joules/36,000 Ampere

This surge protector offers flexible power. Engineered to be the most sophisticated and complete power multiplier, its flexible arms transform the static power strip into a dynamic power delivery device.

### **Built-in convenience**

- 5 flexible outlets
- Power indicator light
- Protection indicator light
- Right angle plug
- 1 m power lead

### **Dependable protection**

- £50,000 equipment warranty
- V3 Advanced Surge Technology
- Power blocker
- 40 dB EMI/RFI noise filtration
- Master on/off switch

### **Ideal for dial-up and DSL**

- Phone line protection
- I-line splitter

**PHILIPS**  
sense and simplicity

- **Packaging dimensions (W x H x D):**  
17.1 x 48.3 x 10.2 cm
- **Net weight:** 1.179 kg
- **Gross weight:** 1.338 kg
- **Tare weight:** 0.159 kg

### Outer Box

- **Outer carton (L x W x H):** 50.5 x 19.1 x 32.7 cm
- **Net weight:** 3.537 kg
- **Gross weight:** 4.014 kg
- **Tare weight:** 0.477 kg

SPR5520/05

## Product highlights

### 5 flexible outlets

Five outlets on separate leads that are all adapter-spaced accommodate multiple devices without crowding.

### £50,000 equipment warranty

Protects your connected equipment for the life of the product.

### V3 Advanced Surge Technology

This new surge protection technology provides 27% greater surge protection capacity and better heat dissipation for safe, more reliable and longer-lasting surge protection.

### Power blocker

This automatic shutdown technology senses when the device has reached capacity and automatically shuts down electricity to your equipment. It protects against subsequent surges, even if you are not present

### 40 dB EMI/RFI noise filtration

Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data. The higher the dB rating the better the noise reduction.

### Master on/off switch

This master switch controls power to the outlets on the surge protector.

### Power indicator light

This LED alert lights up to indicate that the surge protector is drawing power from the AC outlet.

### Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.

### Phone line protection

These connectors accommodate an RJ11 lead, routing the telephone line through the surge protector to guard against spikes and surges.

### I-line splitter

These connectors route the telephone line through the surge protector and split the line to allow two devices to be connected. This offers the convenience of leaving two devices connected constantly even though they may not be used simultaneously

### 1 m power lead

Provides power to the unit which can be 1 m from the AC outlet.

Issue date 2008-10-02
